

Activity 2: Think of Drawbacks to Traditional Currency

Time: 10 to 15 Minutes

There are disadvantages to the anonymous nature of cryptocurrency. Even ardent supporters do admit that there is the potential for use by terrorist groups and organised crime. However, there are also the same risks with the use of traditional currency.

Spend about 10 to 15 minutes thinking of the drawbacks to the use of traditional currency, such as its ability to be laundered. This exercise can also help you to break any stigma you have about cryptocurrency and give you a few talking points you can use to convince others of its legitimate nature.
