If you want to further your knowledge of Google Data Studio and Data Visualization, feel free to explore the following resources:

- **Data Studio Canada.** A free educational resource designed by our staff at SkildLabs and focused on covering the latest Data Studio tips, tricks and useful best practices: **datastudio.ca**

- **Google Support (Release Notes).** This is a resource managed directly by the Google Data Studio Development Team, which reports on the latest feature updates of the product: **support.google.com/datastudio/answer/10331528/release-notes-2021**

- **Supermetrics.** As students of this course, you also get 20% OFF any subscription of the data automation tool Supermetrics with promo code: **LACHO20.** For more information visit: **supermetrics.com**

- **LinkedIn.** Last but not least, you can always connect with the instructor on LinkedIn.
