SHOW OR HIDE THE RIBBON

- CTRL+F1
- •
USE THE QUICK ACCESS TOOLBAR

- Right-click a button, and then click Add to Quick Access Toolbar.

ADD A LIST WITH CHECKBOXES

If you just need a checklist that you can print, you can make a list where each item has a check box that you can check off on paper. You can also create a list of check boxes and check off items electronically by opening the document in Word.

NOTE If you cannot check off an item electronically, it might be formatted for printing only or the document might be locked.

Make a checklist that you can check off in Word

To use check boxes that you can check off in Word, you insert the check box content control into your document. To check off the items, you add protection to the form.

The result looks like the following illustration.

New Year’s Resolutions
- Clean out the garage
- Walk the dog daily
- Eat 5 servings of fruit and vegetables
- Carpool, take the bus, or bicycle to work at least 3 times per week
- Watch no more than 2 hours of TV per day
- Read a novel

To add the check boxes, you need to use the Developer tab.

STEP 1: SHOW THE DEVELOPER TAB

1. Click the File tab.
2. Click Options.
3. Click Customize Ribbon.
4. Under Customize the Ribbon, click Main Tabs.
5. In the list, select the Developer check box, and then click OK.
STEP 2: MAKE YOUR LIST

1. On the Developer tab, in the Controls group, click Check Box Content Control, and then press TAB.
2. Type the first item in your list, and then click ENTER.
3. Repeat steps 1-2 for each item in your list.

   TIP You can also type all the items in the list, insert the check box control and tab character for the first item, and then use copy and paste to add the check box and tab character to each item in the list.

   NOTE If you want to use a check mark symbol instead of the X, select the check box content control, click Properties in the Controls group, and then click the Change button next to Checked symbol. You can then choose a new symbol. The new symbol will replace both the box and the X.

STEP 3: REFINE THE LAYOUT

If some of the items in your list are more than one line long, you might want to adjust the layout so that the items are aligned.

1. Select the list.
2. On the Home tab, click the Paragraph Dialog Box Launcher.
3. Under Indentation, type 0.25 in the Left box.
4. Under Special, click Hanging.

STEP 4: GROUP THE CONTROLS SO THAT YOU CAN CHECK THE ITEMS IN THE LIST

To check off the items by clicking in the check boxes, you need to group the controls. This will lock the text and layout.

1. On the Home tab, in the Editing group, click Select, and then click Select All.

2. On the Developer tab, in the Controls group, click Group, and then click Group again.
If you just want to create a checklist with check boxes that you will check off on paper, you can create a list that uses a box symbol as a bullet. You can choose from a variety of box characters.

1. Type your list of items.
2. Select the list.
3. On the Home tab, in the Paragraph group, click the arrow next to Bullets.

4. Click Define New Bullet.
5. Click Symbol.
6. In the Font box, click a symbol font that is installed on your computer, such as Wingdings.
7. Scroll through the list of available symbols, and then double-click the box symbol that you want to use, such as an open box (□) or a three-dimensional box (□).
