Typical Certificate course on Alison is 2-3 hours study duration plus an end of course assessment.

A Certificate course can consist of three Modules of learning content and one Module for the assessment.

Module of Learning Content – Consists of five Topics as follows:

Topic 1 – Module Learning Outcomes are a short list of what the student will be able to do having studied the Module. They also indicate what the student will be assessed on. We will guide you on how to write the learning outcomes.

Topics 2-4 – Learning content – Each Topic contains 15-20 pages of learning content. Each page is approximately 1 minute of learning. Each Topic is 15-20 minutes of learning. Each Module is 45-60 minutes of learning.

Number of words per page – This can vary greatly depending on whether assets such as Tabs are included on the page. Contact the Alison Publishing Team for more details.

Topic 5 – Lesson Summary. This topic summarizes the main points of the module, typically in five pages or less.

Assessment Module – An end of course assessment contains a minimum of 30 questions. They are generally a combination of different question types such as: True/False, Multiple choice, Multiple response, Matching Drag and Drop, Sequence, Hotspot, Numeric, Fill in the Blank
