

Custom Boxes

If you are not purchasing your inventory from Alibaba, or you are not purchasing a high enough quantity for the supplier to be able to offer you custom boxes, there *is* an alternative solution.

Purchasing them from an online company with no minimum order is the solution. Since there is no minimum order, the prices are higher than usual, but this is to be expected.

You can use Fiverr to get the package design created, and then order your custom boxes using your newly created design.

Below I've listed a few websites that have no minimum order quantities, but please do your *own* Google search as well 😊

Customprintbox.com

Pack.ly
