

Module 3: The Mechanics of Cryptocurrency

Activity 1: Think About Privacy

Time: 10 to 15 Minutes

Think about the reasons why you are interested in cryptocurrency. Are you looking to invest? To make purchases? To learn more so you can develop your own type? The reasons why you want to understand digital currency can help you figure out which one you should study in greater detail.

You should also think about what features you feel are the most important. Those who value privacy may want to investigate an anonymous type, beginning with one of the ones mentioned above.
