

Activity 17: Think About Training

Time: 10 to 20 Minutes

For some warehouse managers, the thought of running a safety meeting can be daunting. However, it is an important part of the job. Review the health and safety plan you examined in the first activity, and think about how you would teach it to your staff. Jot down a few notes on important sections, thinking about ways to incorporate visual aids. You can use these notes to help you when you eventually do have to train your staff on new policies and procedures.
