

Activity #1

1. How do you think pharmacy initiatives can help in improving healthcare in communities?

2. How will this help on a broader scale?

Activity #2

1. When should an individual consider going to the pharmacy for assistance, rather than a clinic?

Activity #3

Take a notepad and pen and answer the following questions:

1. How do you think pharmacy workers can help in reducing costs and improving healthcare services?

2. How will this help doctors and GPs?

Activity #4

Write a few sentences explaining how you can improve your services to the public, without allowing your judgement to get clouded by a conflict of interest.

Activity #5

Take some time to think about the following questions:

1. What interpersonal traits would be useful to a pharmacy assistant?

2. How would it help provide a higher standard of service to the public?

Activity #6

Read the question below and spend 10 minutes writing down your thoughts:

1. How can computer literacy help streamline your work as a pharmacist?
