

Giving is a universal principle, which only needs your intention of helping. Selfless giving is what purifies your heart and leads you closer to the divine.

Important points of Giving:

1. Give without expectation of recognition or acknowledgement
2. Giving only requires an intention of helping.
3. One can give through money, blessings, smiles, skills & physical comfort.

In the words of Anne Frank, “No one has ever become poor by giving”, so,

Either through money or through your skills, you can impact someone’s life and manifest this superpower. Go out there and start giving!!!!
