

## Excel Visualizations Charts and Graphs

Thank you for selecting this course. My name is Paula, and I am your instructor. I hope you are ready to get stuck in.

Believe it or not, many of the skills you will acquire in this course are seriously lacking and are in high demand. So, Congratulations on taking this first step as completing this course puts you ahead of the curve.

Before we start you will find workbooks in the course resource section. Make sure you practice along with the examples; it is the key to making sure you understand. Each chart that I create, you must re-create. This is your homework, and it is important that you commit to doing it.

This course contains around 3.5 hours of video content. To get the most out of this course, you should set aside 6-8 hours to really complete the course properly. This will give you time to watch the videos and then practice using the provided workbooks.

This time is an investment in yourself, and I do hope that it will be rewarding.

Let's stay in touch

I hope that you will join the Excel Community, Excel for ALL. In here you can get all of your Excel questions answered and you can network with others.

Feel free to also subscribe to my [Youtube Channel](#) as my goal is to help you Excel in Excel 😊

If you have spare time, I would love you to also drop by my [website](#), maybe even join in on the comments on some of the [blog posts](#).

Finally feel free to follow me on social. [Twitter](#), [Linkedin](#)

Thank you again for selecting this course. Now I have a favour to ask you. Will you please share it and leave a review? Reviews help courses be found on Alison.com and sharing the course across your social profiles is the best referral I can get. Please share it on Facebook, Twitter, Instagram & Linkedin. Feel free to tag me when you do.

Your Instructor,

Paula Guilfoyle CPA MVP

P.S. when you complete this course, why don't you check out the Advanced Dashboards in Excel course. You will find it on my profile.
