

## **Module 4 - Activity 1: Plan a Trip**

*Time: 10 to 15 Minutes*

Pick two or three countries you have always wanted to visit and plan a trip where you are able to visit each one before going home. Write down your destinations, as well as any countries you may travel through on your way. You never know when you may experience a lengthy stopover and have an opportunity to explore a new city!

Once your list is complete, go online and check the rules and regulations about cryptocurrency ownership in each country you may pass through. This exercise can help you avoid accidentally breaking anti-money laundering laws, which tend to carry with them strict penalties.
