

## **Module 5 - Activity 2: Pick a Wallet**

*Time: 10 to 15 Minutes*

There are numerous types of wallets on the market to choose from. Before you start thinking about using cryptocurrency for purchases or investments, take some time to think about the type of wallet you want. Consider the various types discussed above in connection with your own needs.

For example, if you prefer to have a secure wallet over anything else, you may want a hardware wallet. Once you select the type of wallet that is best for you, use a search engine to make a list of five or six brands you can choose from.
