

*Activity 1*

*Estimated time: 15 minutes*

*This module lays out the skills that a successful transport manager should have. Everyone has strong points and weaknesses. Thinking about the qualities listed above, carry out an analysis of your own skillset.*

*What areas do you think that you are already strong in and what areas do you feel that you need to develop?*

*What action do you think you can take to improve your skillset?*

*Activity 2*

***Estimated time: 10 minutes***

*Thinking about the challenges facing the transport industry, why do you think that it is important for transport managers to understand them?*

*What impact could they have on a business and can a successful transport manager anticipate and manage them?*
