

Activity 1

Estimated time: 10 minutes

What parts of operating an airline service is the transport manager responsible for?

What does each part encompass and why is it important that they are properly managed?

Activity 2

Estimated time: 15 minutes

Imagine that you have to create a flight plan for a new route. What do you need to remember to take into account?

What are the costs that must be considered?

Who needs to be informed of the plans?
