

Activity 1

Estimated time: 10 minutes

What do you see the role of the transport manager to be in an organisation's health and safety operation?

Thinking back through the course, what aspects of the transport manager's role directly relate to health and safety issues and which aspects relate indirectly?

Activity 2

Estimated time: 15 minutes

Imagine that you work at a port or airport and have been tasked with creating a health and safety assessment.

What risks will you identify?

What can be done to minimise them?

Who might you need to work with, to assess the risks and then propose solutions?
